MEMORANDUM FOR: Director, NPIC

THROUGH: Chief, Production Services Group, NPIC

25X1 SUBJECT: [] Proposal to Furnish Systems
Engineering Support Services

25X1 REFERENCE: [] Letter, dated 17 September 1970
Proposal Number P-521-104-75

25X1 1. This memorandum contains request for approval of contract funds of [] Such recommendation is stated in Paragraph 7.

2. Our basic developmental effort to provide software for implementation of the Integrated Information System (IIS) will culminate within the next thirty to sixty days. We recognize and anticipate a shake down period of from six to nine months during which the system will require substantial performance evaluation, maintenance and upgrading actions. Programs will be functioning and interacting under a wide variety of operational demands. User competition in terms of available computer core to support the many interactive programs will require system improvements to keep response times within reasonable limits.

3. To ensure that problems are addressed quickly, effectively and with minimum impact on the Center's operational mission, we propose a time and materials contract with Informatics, Inc. to retain the services of a Senior Systems Engineering Consultant for six months. The individual designated has worked on the project since its inception and is intimately familiar with all aspects of the system.

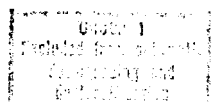

25X1 4. The funds in the estimated amount of [] are available. They will be charged to []

5. There should be no follow on action resulting from the conduct of this work.

Declass Review by NGA

Washington, D. C. 20024

Gentlemen:

25X1

25X1

[redacted] is pleased to submit its Labor Hour proposal in the amount of [redacted] to furnish engineering services in support of your data processing system effort. This proposal is predicated on a level of effort of 1,056 man hours to be expended over a six (6) month contract term. We are also proposing a travel fund on a cost-reimbursable basis, but not to exceed [redacted] without prior approval.

25X1

A suggested work statement and cost summary are set forth in Attachments 1 and 2.

25X1

25X1

Please contact [redacted] Director of System Development, [redacted] for any questions concerning this proposal.

Sincerely,

25X1

PROPOSED WORK STATEMENT

During the period of this contract [] will provide technical services in support of the operational implementation of the Integrated Information System (IIS), and the analysis and upgrading actions necessary for the system to achieve its full potential. These services will be performed by []

[] on the customer's site and will include but not be limited to the following:

1. Assist in the re-cycle performance of Category II Tests on programs which have undergone modification.
2. Assist in the resolution of user interface problems, i.e., those problems which arise as a result of interaction between user and IIS software, procedural matters, system constraints or omissions etc.
3. Assist in the performance of system evaluation studies (use rates, response times, file build-up activity, identification of serious deficiencies, etc.), the development of alternatives and recommended solutions, and the implementation of approved system upgrading plans.
4. Assist in the maintenance and upgrading of Base Line and functional level program specifications, and IIS Users Manuals.
5. Provide training assistance as required.

(*)Or personnel possessing comparable skills and background and otherwise acceptable to the customer.
